Profile

A recent graduate with a Bachelor of Science in Information Technology, I bring a robust technical foundation and a passion for innovative problem-solving. My professional experience is anchored in independently developed web projects, demonstrating my ability to learn, adapt, and deliver comprehensive technical solutions. With a strong work ethic and keen analytical skills, I excel at troubleshooting complex challenges and rapidly acquiring new technologies. My self-directed approach to learning has enabled me to build full-stack applications that showcase my technical versatility and commitment to continuous professional growth.

Education

Eduvos

BSc in Information Technology

- Projected Graduation: May 2025

Feb 2022 – May 2025

Bedfordview, Germiston

Horizon International High School

National Senior Certificate

Jan 2016 – Dec 2020

Stafford, Johannesburg

Qualifications Summary

- Strong foundation in software design principles learned through academic projects and personal development
- Practical experience in implementing database designs and data modeling through academic coursework
- Hands-on experience with software development processes from planning to deployment in project work
- Demonstrated ability to learn and apply new technologies quickly through self-directed projects

Technical Skills

Languages: Java, JavaScript, SQL, HTML/CSS, PHP

Technologies: Spring Boot, Vue, PostgreSQL, Docker, RESTful APIs

Developer Tools: IntelliJ, Postman, Git, JUnit, Flyway

Skills: OOP, SDLC, System Design, UX/UI Design, Database Design

Projects

Rick and Morty Wiki | [Website](#) | [Source Code](#)

Spring Boot | Vue.js | Rick and Morty API

- Developed a comprehensive full-stack web application consuming the **Rick and Morty API** to create an interactive wiki for characters, locations, and episodes
- Implemented a **Vue.js** frontend with **Vue Router** and a **Spring Boot** backend, demonstrating full-stack development skills
- Created a responsive single-page application with multiple views including characters, locations, and episode directories

Task Manager Application | [Source Code](#)

Spring Boot | PostgreSQL | Docker

- Developed a robust task management application using **Spring Boot** and **PostgreSQL** for efficient task tracking
- Designed and implemented **RESTful APIs** for comprehensive task creation, assignment, and status tracking

E-commerce Website | [Source Code](#)

PHP | MySQL | JavaScript | SemanticUI

- Developed a responsive e-commerce platform using **PHP** and **MySQL** for robust backend functionality
- Implemented secure **user authentication** and interactive **shopping cart** features
- Designed a modern, user-friendly interface using **SemanticUI** and **JavaScript**

Professional Skills

- Strong problem-solving abilities with focus on creating maintainable solutions
- Excellent communication and organizational skills
- Highly adaptable to new technologies and development practices
